PHOTO DATA:

REMARKS:

Saratov Airframe Plant 292 contains some objects located in the packing and crating area. These objects are under canvas, measure approximately [REDACTED] in length, and have a configuration more suggestive of a missile than an aircraft. Shipping crates are also located in this area and on the airfield and measure approximately [REDACTED] in length. They are similar to a crate identified on [REDACTED] photography in the Zone 8 support area at the Kapustin Yar Missile Test Center.
